- State budget influence

Action Agenda Questions

1. What is the current status of Puget Sound? What are the biggest threats to it?
2. What is a healthy Puget Sound?
3. What actions must we take to move from where we are today toward a healthy Puget Sound?
4. Where should we start?

What is the current status of Puget Sound?

What are the biggest threats to it?

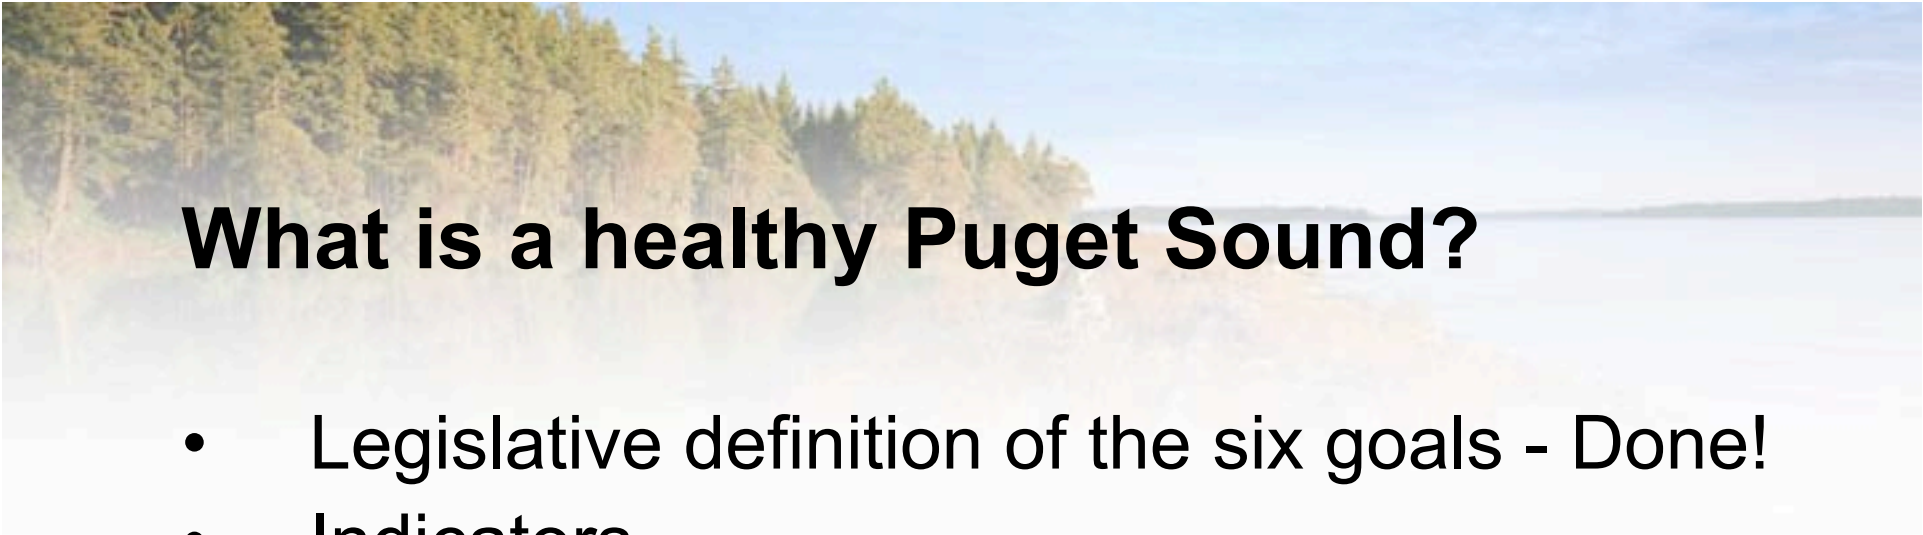

Analytic work:

- Threat and drivers analysis - fall 2008
- Action area profiles - late June 2008
- Topic forums - early July
- Leadership Council briefing - September

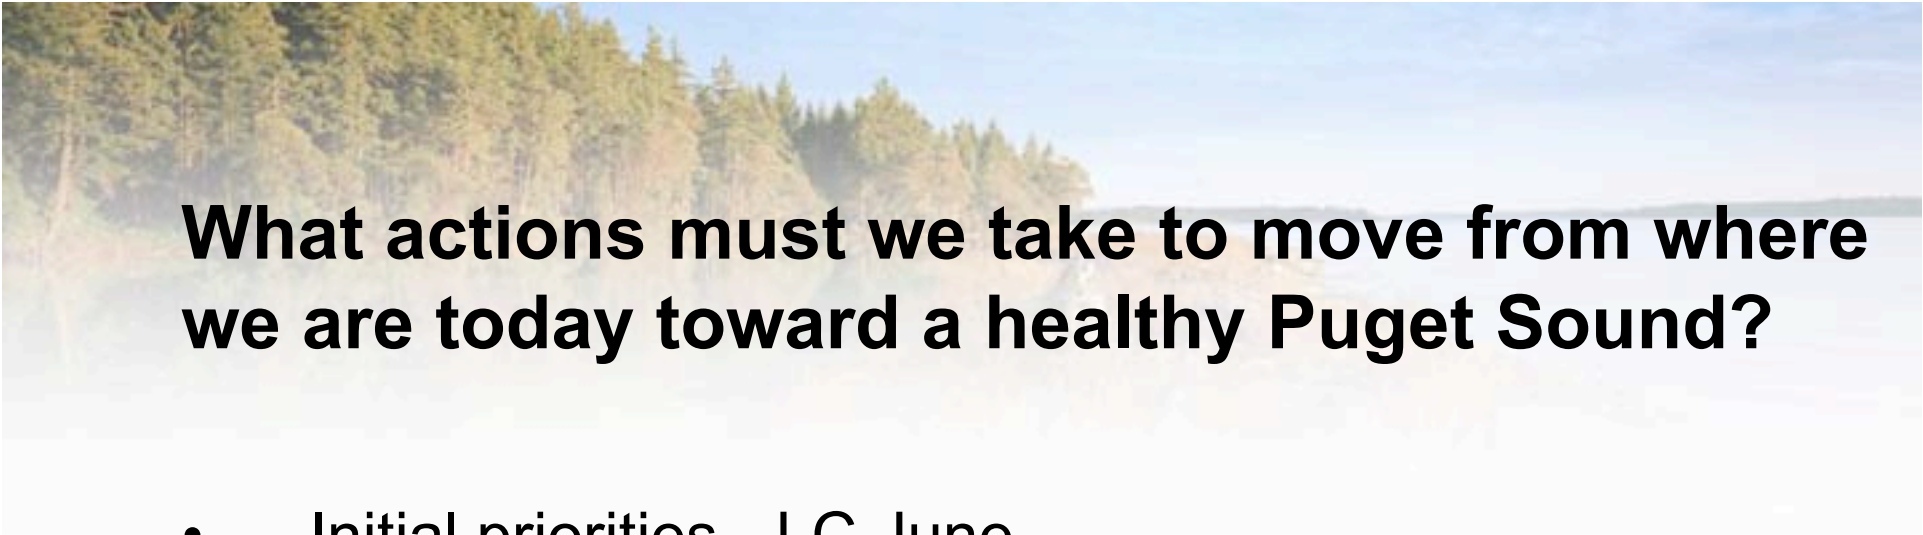

Topic forums comments reminder

1. Organized by major themes that emerge from review
2. Summary response for types of comments in each theme and how addressed in the revised paper or not
3. Post summary and comments on the web
4. Post final papers on web

What is a healthy Puget Sound?

- Legislative definition of the six goals - Done!
- Indicators
 - Scientific “list”
 - Short list to guide actions, reporting (some science, some programmatic)
 - Outcome targets and benchmarks for indicators
- WRI Goods and Services interviews - August ECB

What actions must we take to move from where we are today toward a healthy Puget Sound?

- Initial priorities - LC June
 - Topic Forums
 - Set Action Agenda direction
 - State budget guidance
- Topic forums, action area meetings, leadership council, ECB guidance

Initial Priorities

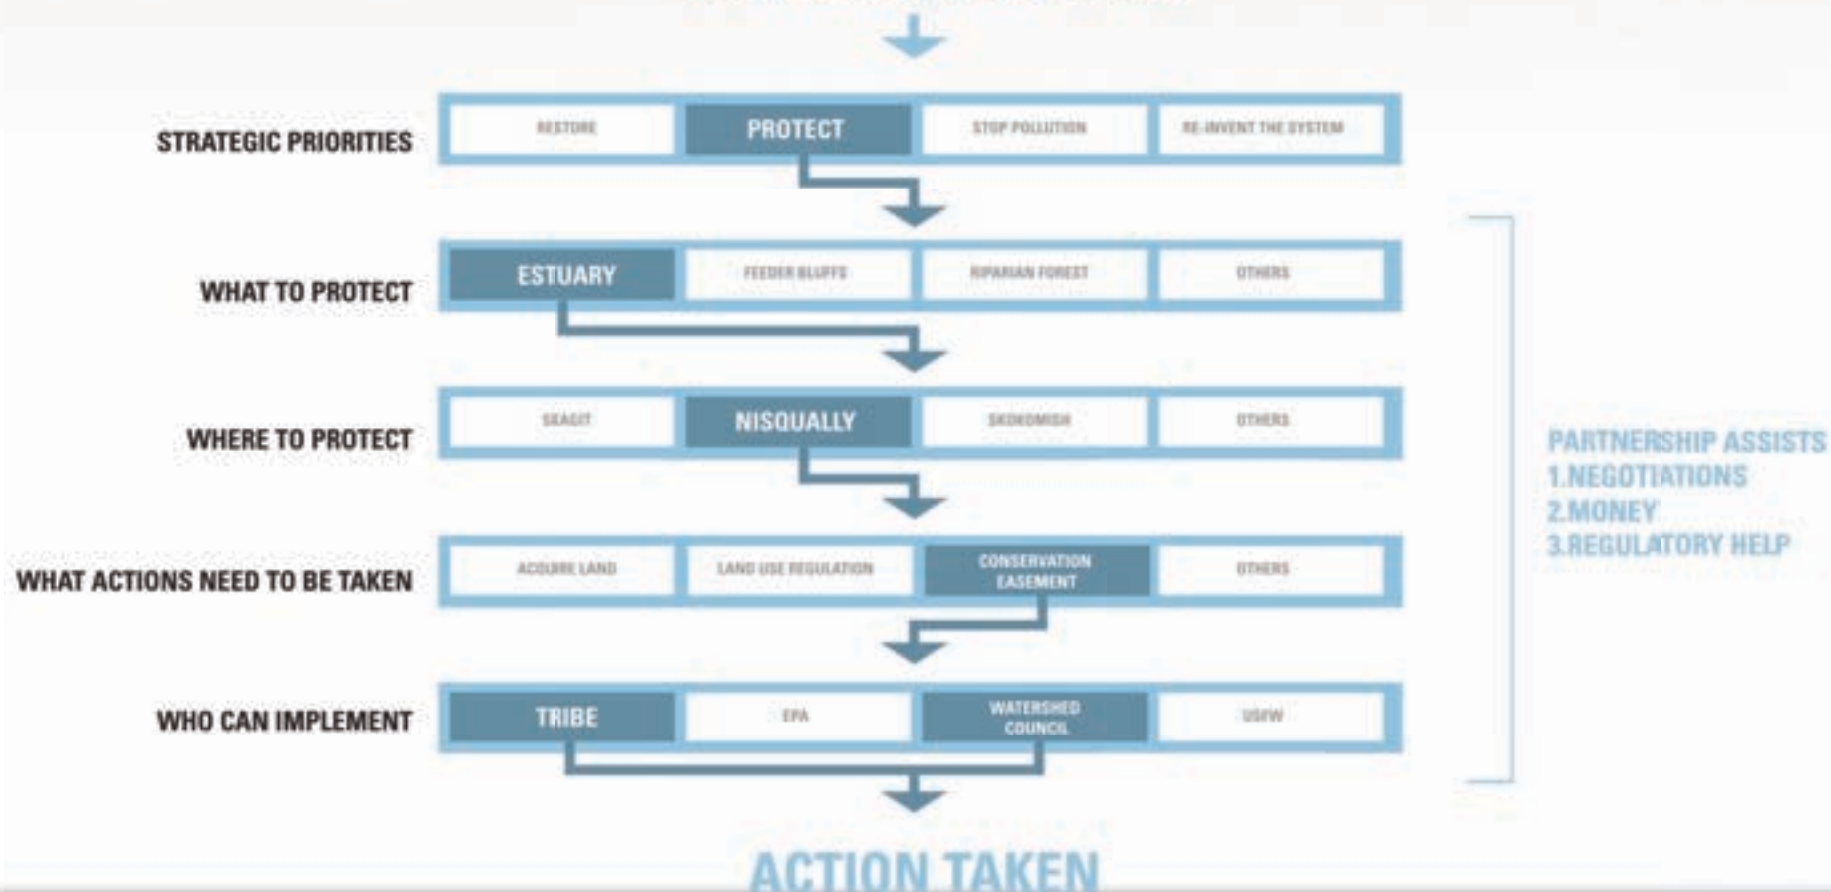

- Focus activities and funding on urgent and important problems
- Protect intact ecosystem processes
- Implement restoration projects that provide high ecological benefit
- Reduce water pollution at the source

Action Agenda: Linking Strategies and Actions

DISCUSSION DRAFT JUNE 18, 2008

NOTES:

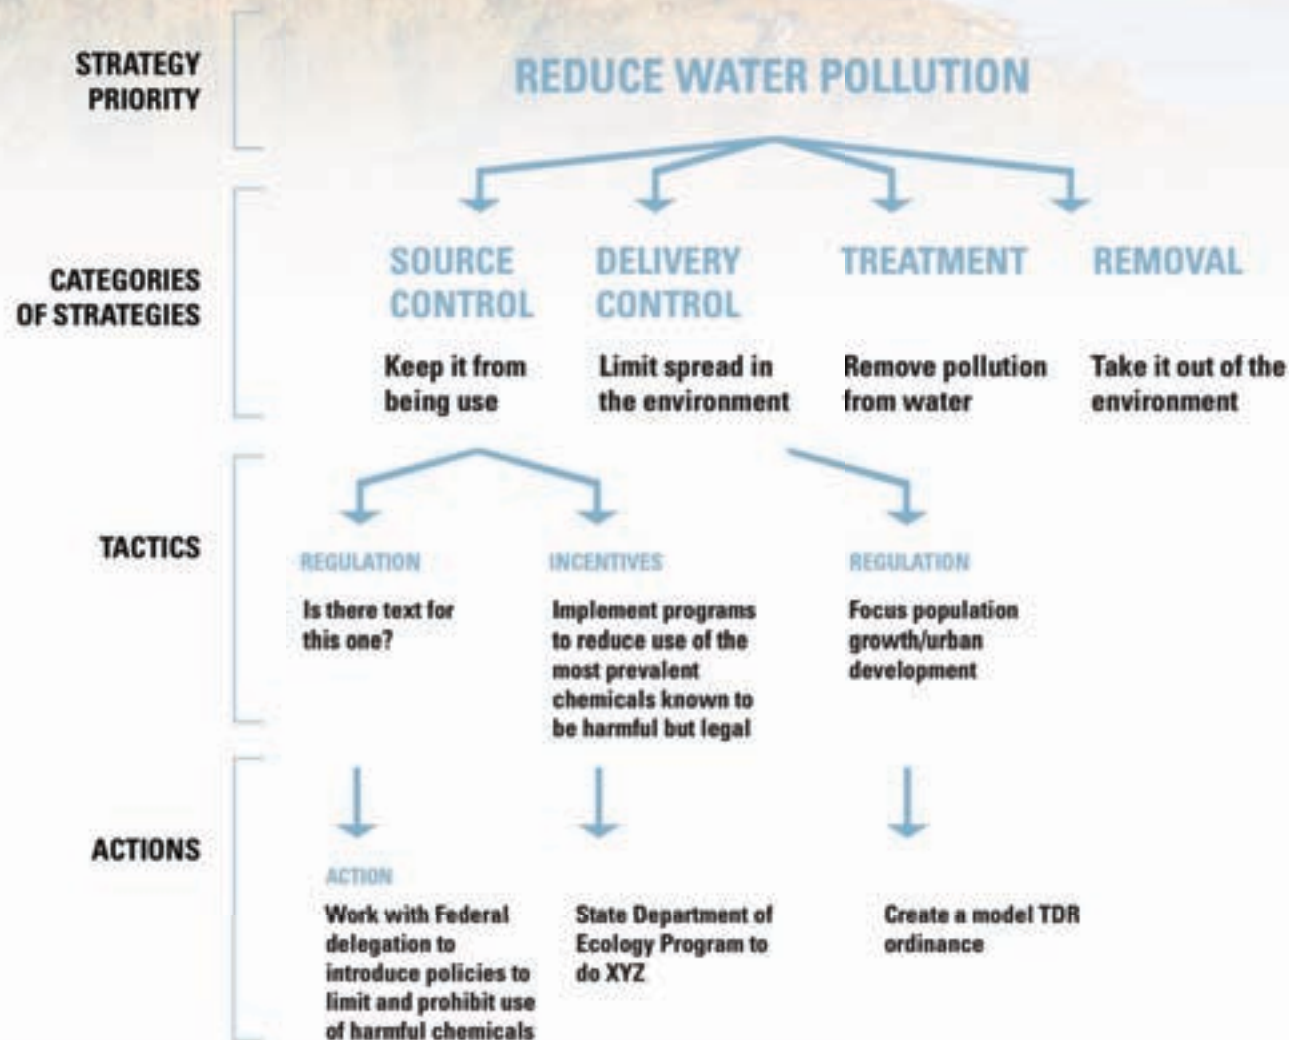

- **Strategic Priority** - relevant everywhere
- **Strategic Priority Categories/Emphasis** - groupings and types of tactics
- **Tactics** - specific details or parts of a strategy and how it can be implemented
- **Actions** - (a) timeframe, cost, costscope, location, performance measures, monitoring needs
(b) need a "hypothesis" - why implement this action in this place or at this time? What is the anticipated result?
